If your firmware version is newest, you will see page below:

If your firmware version is a old one, you will see page:

Click "Update" button,printer will get latest firmware from internet and update automatically.

Tips:

1. Please DO NOT disconnect from the network .

2. Please DO NOT unplug the power while upgrading.

3. Please DO NOT power off printer until the upgrade is successful.

   After the upgrade is successful, the printer will restart and beep a sound.
