

DISCLAIMERS:

SPECIFICATIONS ARE SUBJECT TO CHANGE WITHOUT NOTICE. ALL VIEWSCREEN AND OUTPUT IMAGES ARE SIMULATED.

1. Page yield of included ink bottles used for initial setup is lower than the replacement ink bottles, as a certain amount of ink is consumed to fill into the print head during setup (charging the print head initially). Page yield is the estimated value based on Canon individual test method using the ISO/IEC 29103 chart and continuous printing simulation with the replacement ink bottles after initial setup. Page yield varies significantly depending on content printed, ink levels maintained in all six reservoirs, and other factors.
2. Based on MSRP of \$15.99 per bottle for full set of six GI-23 ink bottles as of March 2021 and Canon individual test method using ISO/IEC 29103 test chart and continuous printing simulation with full set of replacement ink bottles after initial setup, which resulted in 4" x 6" photo paper page yield of approximately 3,800 sheets. Page yield may vary depending on content printed and other factors.
3. Based on accelerated testing by Canon in dark storage under controlled temperature, humidity and gas conditions, simulating storage in an album with plastic sleeves. Canon cannot guarantee the longevity of prints; results may vary depending on printed image, drying time, display/storage conditions, and environmental factors. See www.usa.canon.com/chromalife100 for additional details.
