How to print on the computer

Firstly, make sure you are using the Windows System

1. Download the drive and APP on the official NIIMBOT website;

(niimbot.net -- Apps -- Download NIIMBOT for PC)

Or you can download the drive in Help Center of the APP;

2. The APP is in Chinese when downloaded on the Windows,

please change into English in setting;

3. Connect the B1 labeler with your computer by USB cable

provided, then the app will show it connected in the right corner

with a symbol $\boldsymbol{\checkmark}$

4. Click the "New template" and choose the "consumables inside the printer" label template;

5. Drag the mouse with the text to edit and print
