www.munbyn.biz/941**b**d

- Please run the downloaded software from the web address indicated above and follow the prompts to complete installation.

2.3.1 Windows Driver Installation

2.3.2 Mac Driver Installation

2.3.3 Ubuntu Driver Installation
2.4 Bluetooth connection
(Only for Bluetooth version)

2.4.1 Connect to the App via Bluetooth

1. Search "**Munbyn Print**" on App Store or Google Play to get the App

Google Play   App Store   **Initial Setup**

2. Open the "**Munbyn Print**" and connect to the printer.

3. If your mobile needs a PIN password, please enter "0000".

Note:
- Due to the mobile phone system requirements, the app needs to access your location services information, you'll get a notification requesting permission. You need to enable GPS and confirm authorization (Android only).

03 Pro Tips

- **Anytime you change your label**, run the automatic label identification.

- Press the feeder button on the printer to **skip a blank label**.

- **To run a self-test**, press and hold the feeder button until you hear two short beeps.

- **Avoid poor quality labels** as they can damage the printer.

- Regularly **clean the printer head**.

- **If the paper is jammed and the red light flashes**, run Automatic label identification.

- Insert Munbyn into the **same USB port** on your computer every time. This will avoid creating duplicate copies of the printer in your operating system.

10 FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1)this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
