

The Using Guide of Chrome plugin

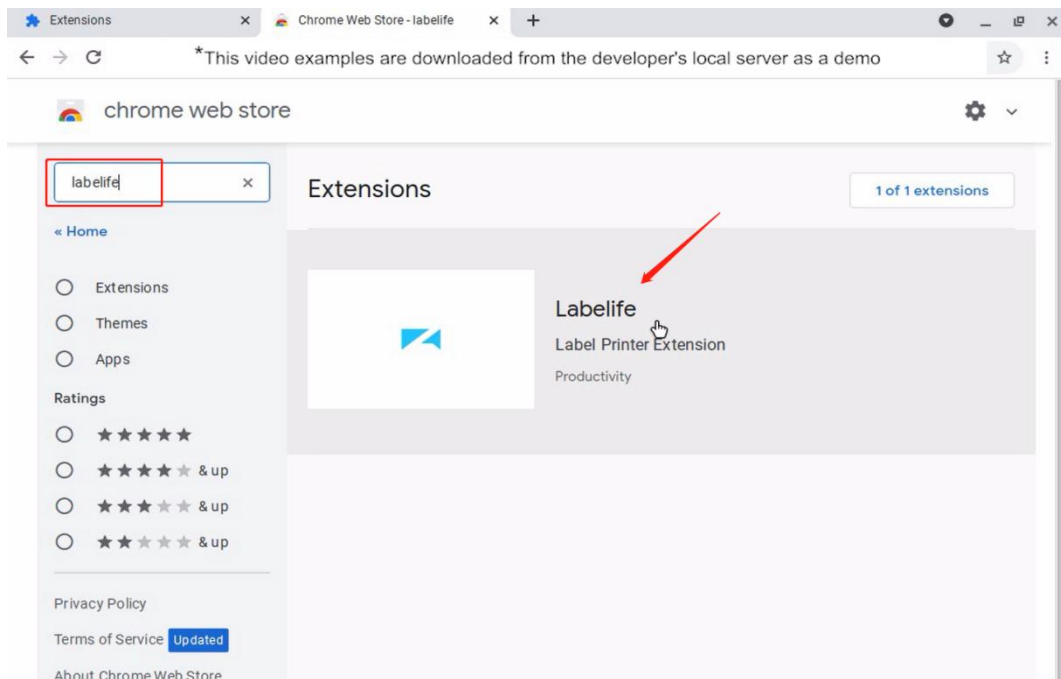

1. Open Google Chrome browser. In the upper right corner ->click "More tools"->"Extensions"

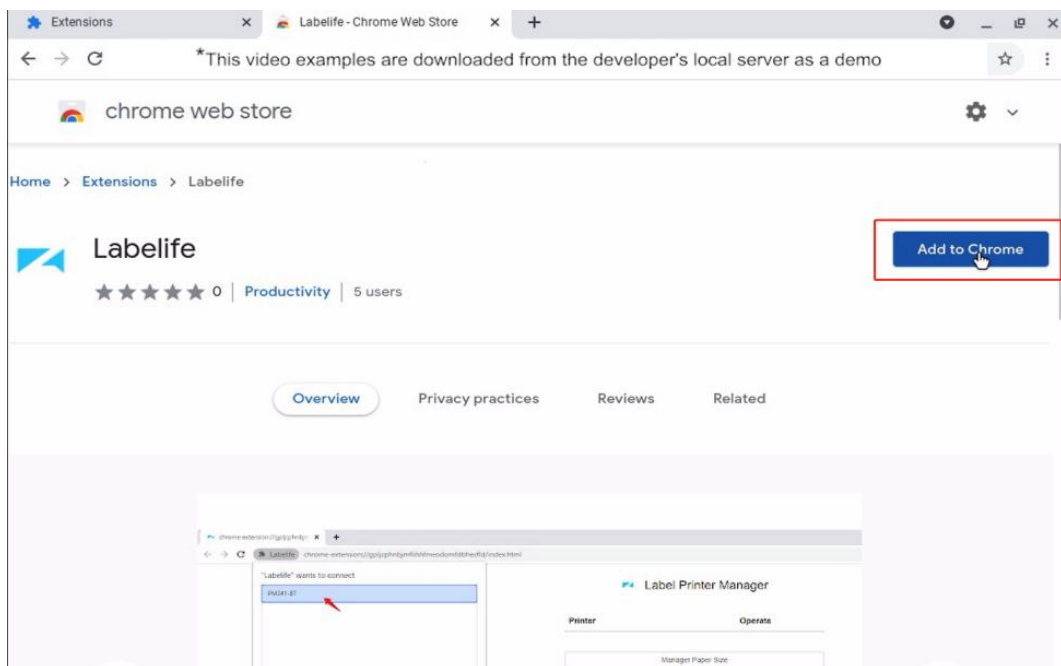

2. Go to "Chrome Web Store"

3. Search “Labelife”

4. Add to Chrome

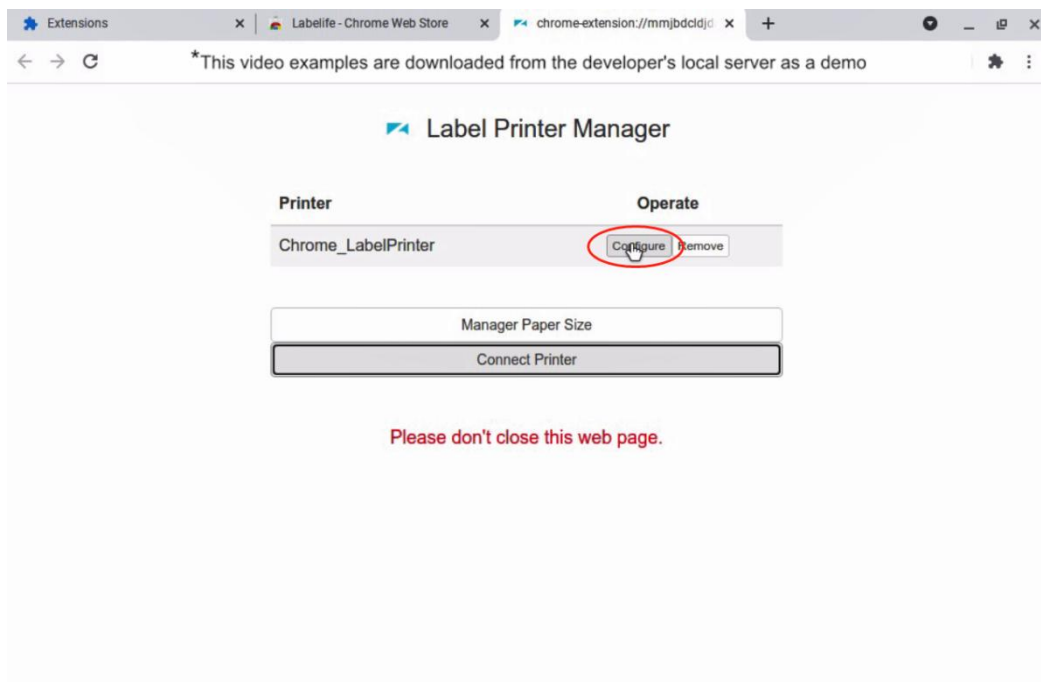

5. Click "Labelife"->"Connect Printer"->connect printer successfully

The first screenshot shows the Chrome Web Store page for the 'Labelife' extension. The extension is categorized under 'Productivity' and has 5 users. A red box labeled '1' highlights the extension icon in the top right corner of the browser window. A second red box labeled '2' highlights the 'Labelife' extension in the 'Extensions' dropdown menu that appears when the icon is clicked.

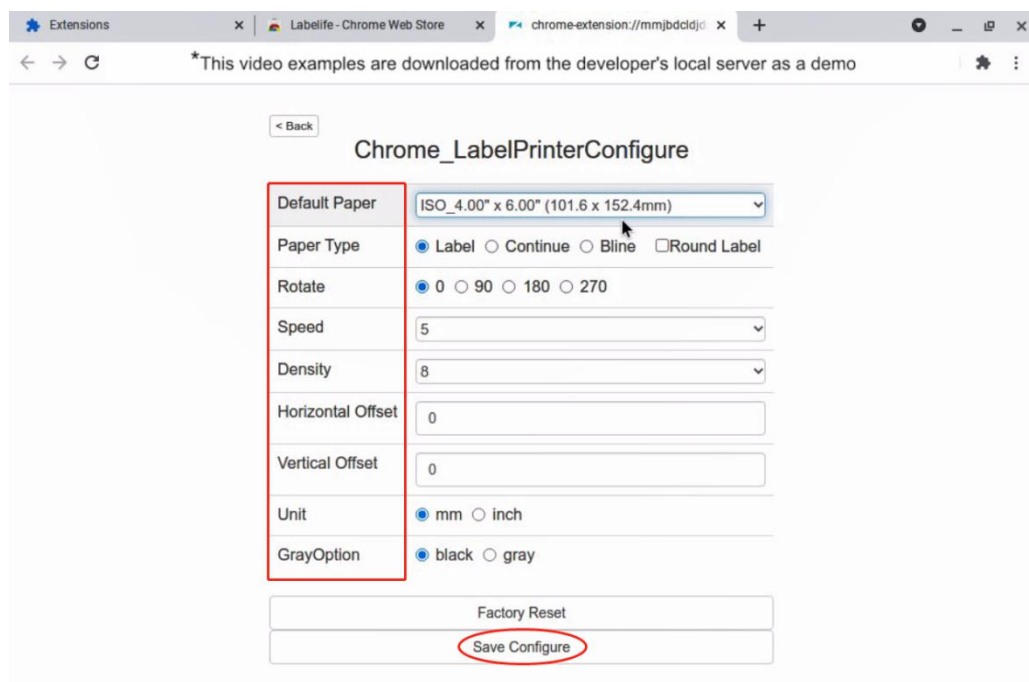

The second screenshot shows the 'Label Printer Manager' interface. It has two tabs: 'Printer' and 'Operate'. Under the 'Printer' tab, there is a 'Manager Paper Size' section with a 'Connect Printer' button highlighted by a red box. Below this, a red text message reads: 'Please don't close this web page.'

The third screenshot shows a system dialog box titled '"Labelife" wants to connect'. It lists 'LabelPrinter' as the device to be connected. The 'Connect' button is highlighted by a red box. In the background, the 'Label Printer Manager' interface is still visible, showing the 'Operate' tab and the 'Manager Paper Size' section.

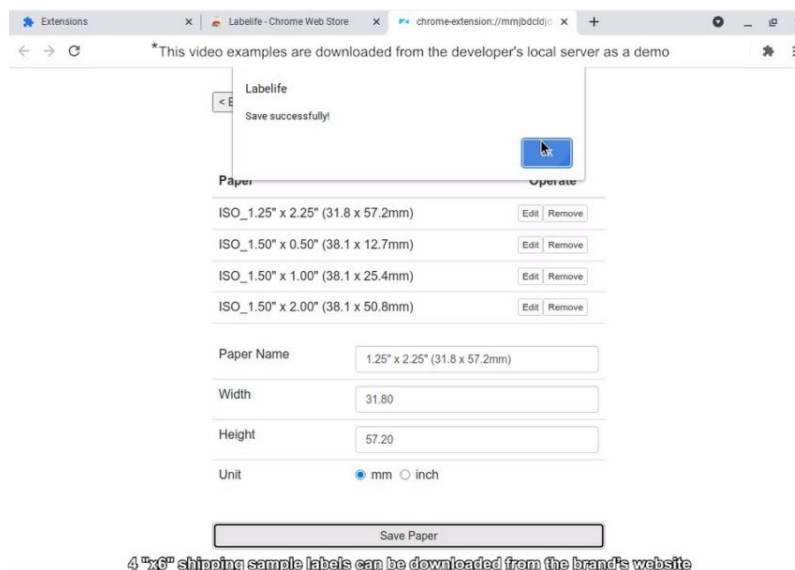

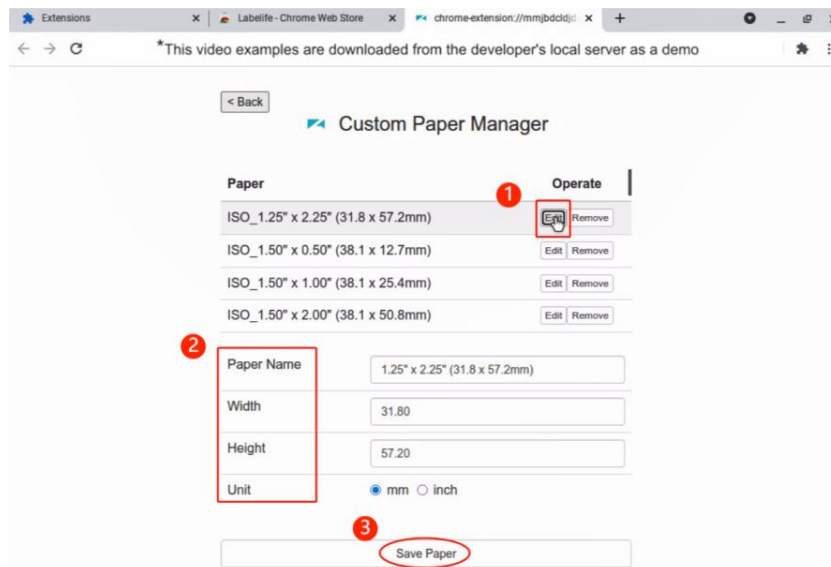

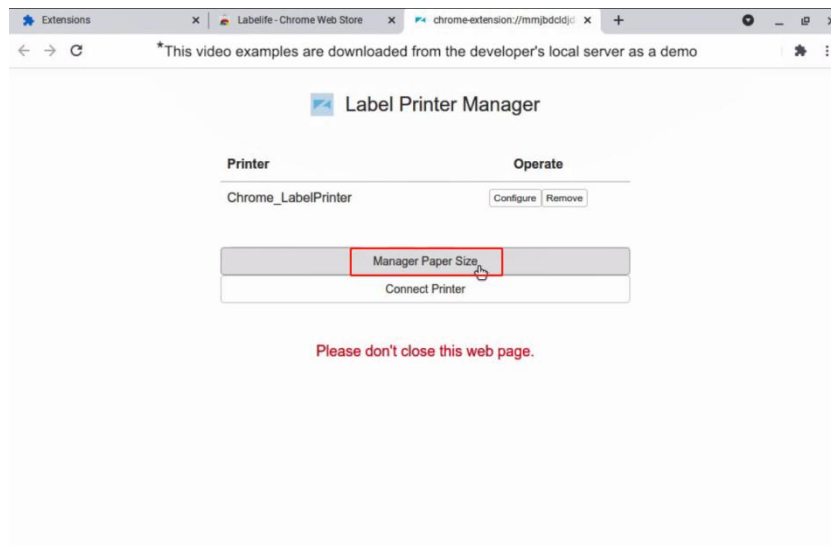

6. Click “Configure” to set the printing parameters

7. Set the parameters that need to be adjusted, such as “Default Paper , Paper Type, Speed, Density” etc. Then click “Save Configure”

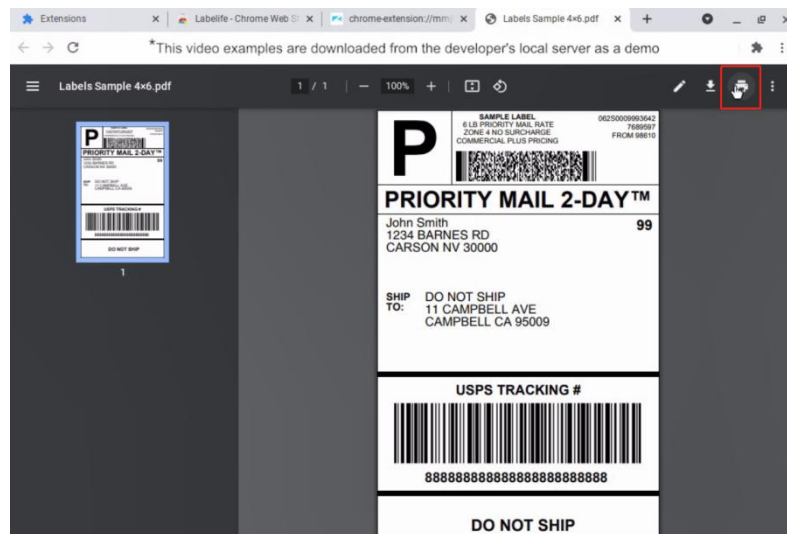

8. Select “Manager Paper Size” to edit the “Paper Size, Paper Name, Width, Height, Unit”, then click “Save Paper”->OK

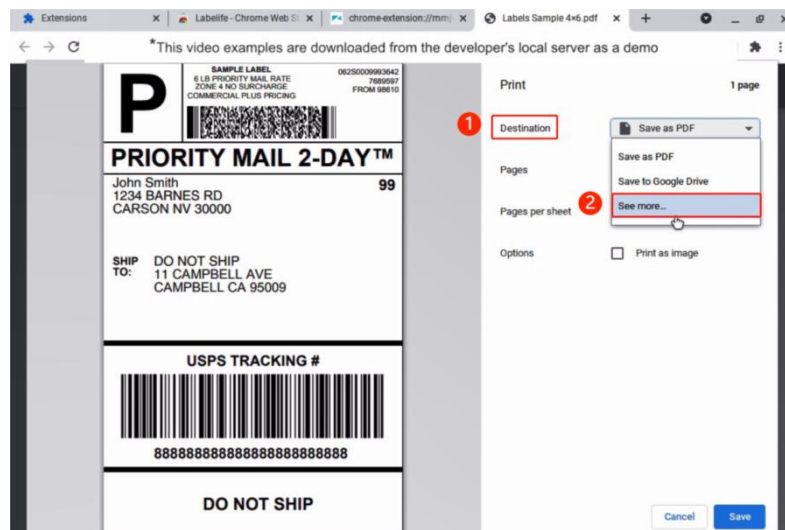

4 "x6" shipping sample labels can be downloaded from the brand's website

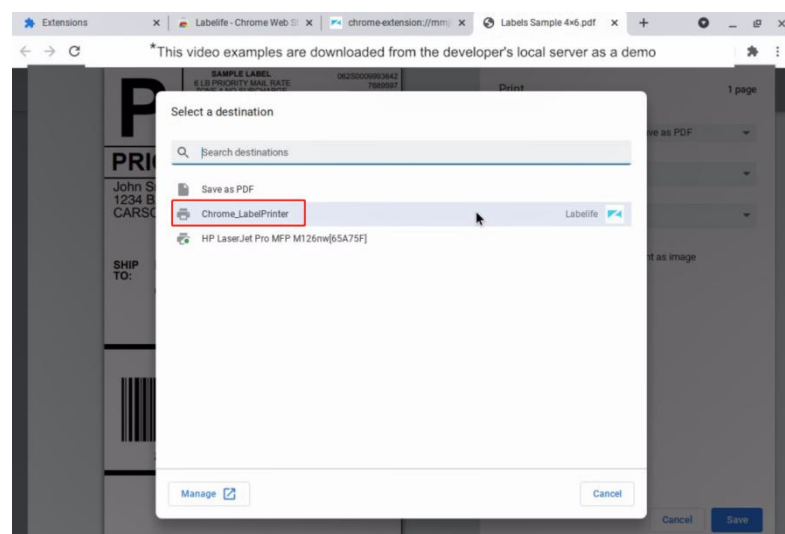

9. Open a file(e.g.a PDF). Click “Print”

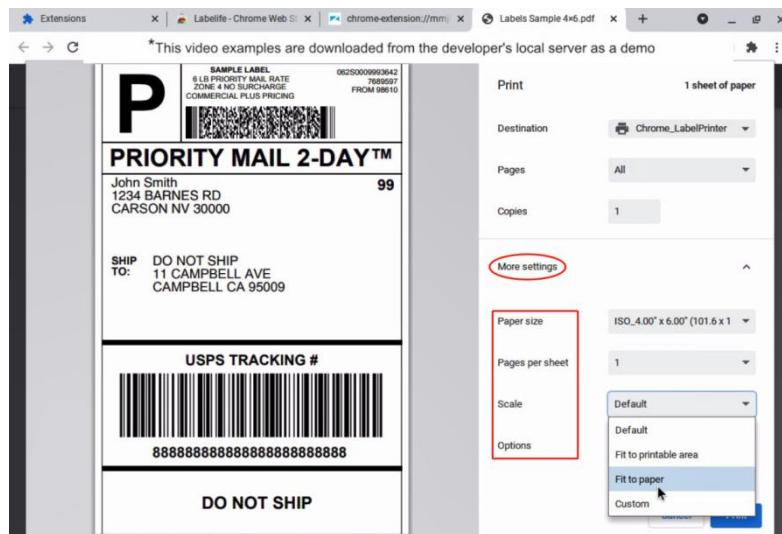

10. Click “Destination”->”See more”

11. Select your Printer

12. You can set other parameters in the “More settings”

13. Finally, click “Print”
