# **3.Printer Connection**

- Ensure the printer is OFF.
- Use original power adapter only in case harm or injure.
- Unplug if no use in a long time.

# 4.The suitable label size

- Jadens printer works with any Thermal Direct Label, and compatible with a width range from 1.57" to 4.1" and length over 1.18"
- Ideal for 4"\*6"

Load the label and adjust the paper guide to fit the width of paper.

The label you peel off should be facing up (toward the ceiling)

4	

Carefully close the cover

Turn the power on

Jadens will start automatic label identification, the label will go back and forth for several times and then be positioned at the tear-off point. Jadens is ready to print.

Fan-fold Type Label Loading

Roll Type Label Loading

# **6.Installation for Windows**

>Click ' Get USB Port' to get the USB port which your computer connect to the printer, and then click ' Setup'' . The printer will be successfully set up.

c.After setting up the printer, check your computer if the printer has installed or not.

Go to the 'Setting'> click' Device'> click' Printer & scanners', and then you will find the printer 'Label Printer(4inch)'. Click 'Manage' to print a test page and print labels successfully, that means you have set up the printer successfully.

#### Note:

If you can't print successfully, please restart your computer and printer, then install driver again. Repeat installation will create duplicate copies of the printer in your operating system such as " Printer(4inch)(1,2...) '. Only keep and use the latest one you install.

b.Change printer's port to the COM that matches to the Bluetooth.

Click'Printer & Scanners'> Find'Label Printer(4inch)'>'Manage'>'Printer properties'>'Ports' > Check in the Ports match to your Bluetooth Port(For example, here is COM3)>Click'OK'.

#### 

c.Now you can unplug the USB cable from computer, and then Open PDF file (recommend to use Adobe)>Choose printer named 'Label Printer(4inch)'>You may set up printer preference like darkness, speed, size, then click 'Print' (via Bluetooth).

Note: If you can't print seccessfully, please restart your computer and printer, install again.

# 7. Installation for Mac

JADENS is only compatible with MAC OS V 10.9 or later.

Installation guide video in U-disk for better reference.

#### Step1:Install the driver for Mac

a.Connect power and computer

b.Copy driver 'Label Printer-MacOS.pkg'to desk and install it.(You can also download 'Driver for Mac (JD-268BT)' from

http://www.jadens.com/support/download/label-printer-drivers/

Driver version may be updated, see latest info at support.jadens.com.

# 8. Printer preference setting

#### 8.1. Printer preference setting for windows

Go to the 'Setting'>> click 'Device'>>click 'Printer & scanners'>>find the printer 'Label Printer' >>Click 'Manage'>> click 'Printer Preference'. In this part, you can set the print page size and print speed and density of the label.

#### (1)Setting the paper quality

a. Go to 'Page Setup'. According to the label size, choose the corresponding page size. Generally, most shipping labels are 4"\*6" size.

Stock	1					1
Name:	1" × 2" (25. 1" × 2" (25. 100mm × 1 100mm × 1 100mm × 2 2" × 4" (50. 2.25" × 1.25 2.25" × 4" ( 3" × 2" (76. 4" × 4" (10. 50mm × 10.	4emes60.8mm) 4mms60.8mm) 50mm 00mm 00mm 00mm 00mm 00mm (57.15eers01.75em) 57.15mms101.6mm) 27mms601.6mm) 2mms60.8mm (.6mms010.6mm) .6mms010.4mm mm			×	•

## 10.Important Tips:Print label of multiple size using 'Take a snap shot'

The function of 'Take a snap shot' can solve most print problem. It enables you to print the area you want . Now let us show you how to use it.

#### 1. How to print your labels with nonstandard size.

If the printed PDF/file is unusual size such as A4 which can't be found the same size label to buy. In this situations, you have to use the function of 'take a snapshot' to print. Here are the steps to operate.

#### (1).For windows:

a. Open the PDF in Adobe Reader

b. From the top panel, select 'Edit'>'Take a Snapshot. choose the area you want to print.

c. Click 'Print', set up the page size same as the labels you load. Then print.

#### Note:

Please make sure the page size match to the loaded label size. Otherwise, it is possible that it prints out over label or misaligned.

- C. Next, from the top panel, select Edit>Take a Snapshot. Then click and drag over one of the labels that you need, so that you can print a specific range of label.

If you want to print the label that include barcode, please make sure print out the barcode vertically in case the high temperature lead to the barcode print out blocks and can't be scanned.

# **11. Frequently asked question**

#### Go to support.jadens.com to see FAQ

How can we help you today?

# 12. Pro tips

- Anytime you change label size, run the automatic label identification by pressing and holding the feed button until you hear one short beep.
- Press the feed button on the printer to skip a blank label.
- -To run a self-test, press and hold the feed button until you hear two short beeps.
- Avoid using poor quality labels as they can damage the printer.
- Regularly clean the printer head as described in 15. MAINTENANCE.
- If paper is jammed, turn off the printer, and allow the printer head to cool down. Open the cover and ensure that the rubber is clean. If dirty, use alcohol pad to clean. Allow the area to dry off before turning the printer on.

# 13. Driver removement

# 16. Safety tips

- The printer head can become very hot after printing labels.Do not touch the printer head until it has cooled.
- Do not bend the power cord excessively or place objects on the cord. This could result in fire.
- Keep the printer out of reach of children.
- Use only approved accessories and do not try to disassemble or repair the unit by yourself.
- Keep the printer away from water and other objects that may destroy or damage the device.
- Printer should remain unplugged when not in use for long periods of time.

# 17. Maintenance

#### CLEANING THE PRINT HEAD

The printer head is a sensitive part of the printer and can be found on the upper part of the printer when open.

Caution: While the printer is running, the printer head can be very hot.

- 1. Ensure that the power switch is OFF, remove the power cord,and open the cover . wait several moments to ensure that the printerhead cools down.
- 2. Completely clean the printer head using an alcohol swab. Any 70% lsopropyl Alcohol pad would work. Please do not use water.
- 3. Wait 2-3 minutes until the alcohol has completely dried, then close the cover.
- 4.Connect the power cord and print a test page to check if it is clean.
