Guide ×1

- The plug type varies by country.
- DHL recommends using 4*8" (100*200 mm) labels.

1.2 Printer Parts

2. Preparation Before Use

2.1 Removing the Protective Paper of Print Head

- 01** Press the Cover Open Button and lift the Top Cover until it reaches 90 degrees.

- 02** Remove the protective sheet.

⚠ Due to model differences, your printer may not include a disposable protective sheet. If this is the case, please skip this step.

2.2 Connecting to the Power Supply

- 01** Insert the printer's Power Cord into the Power Adapter.

- 02** Plug the round end of the Power Adapter into the printer's Power Interface.

- 03** Insert the printer's Power Cord into the Power Adapter.

- 04** Press the Power Button on the back of the printer to turn it on. The Indicator Light on the Top Cover will be on.

2.3 Installing Label Paper

- 01** With the print side up, insert the label paper flat into the paper guide slot at the back of the printer until it auto-feeds. Thus, the loading process is completed.

ⓘ Adjust the paper guides to fit the label size so that the label paper can be secured.

- 02** Long press the Feed Button until the blue indicator light flashes twice. Upon auto-calibration, the label paper will automatically stop at the Paper Outlet in roughly 5 seconds, indicating that calibration is complete.

3. Getting Started

3.1 Downloading the App

Method 1: Search for the "Labelife" app on App Store® or Google Play™ for download and installation.

Download on the
App Store

GET IT ON
Google Play

🔍 **Labelife**

Method 2: Scan the QR code to download the app. You can scan the code using your cell phone's camera, the built-in QR code scanning feature of your browser, or a dedicated QR code scanning app.

⚠️ As the Safari browser on Apple devices does not support direct QR code scanning, please use your device's built-in QR code scanner instead.

3.2 Printing via Mobile Devices

- 01** Open the "Labelife" app. **02** Tap [Connect to Printer]. **03** Grant permissions.

⚠️ For more information about app permissions, see [3.3 Permission Description](#) in this guide.

- 04** Wait for the printer to be connected. **05** The printer is successfully connected. **06** Tap [Print] to print your first label.

- 07** Printing is completed. **08** Tear off the label along the Paper Outlet.

- 09** Remove the backing. **10** Stick the label onto a dry, flat surface.

3.3 Permission Description

When the printer is being connected, the app will request necessary permissions.

For iOS

1. The app requires access to the Internet.

2. The app requires Bluetooth permission.

For Android

1. The app requires permission to search for nearby Bluetooth devices.

! The app requires permission to scan for nearby Bluetooth devices for Android 12 and later versions and GPS permission for systems below Android 12 to activate the same function.

2. Bluetooth Pairing Request.

! You can tap "Pair" without checking "Allow access to your contacts and call history"

4. Printing via Computer

4.1 Connecting with USB Cable

- 01 Plug the USB-A end (wider end) of the cable into the USB-A port on the computer.

! For Mac, a USB adapter is needed.

- 02 Plug the USB-B end (narrower end) of the cable into the USB-B port on the printer.

4.2 Downloading and Installing the Driver

- 01 Please visit pm241.labelife.cc to download the driver.

- ! • If your operating system is ChromeOS, please refer to [5. More Applications](#) in this guide.
• When connected to the Internet and with the printer powered on, Windows computers will automatically install the driver once linked to the printer via a USB cable.
• Support for Linux is limited. Please contact customer service for more information.

- 02 Double-click the driver installation package.

- 03 Run the driver setup program. Upon the successful installation, the printer can be accessed from Control Panel.

PM-241-BT

! On macOS, you need to access System Settings to manually add the printer.

Printers & Scanners

Add Printer, Scanner, or Fax...

- ! For instructions on connecting the printer to your computer via Bluetooth, please visit pm241.labelife.cc.

4.3 Printing PDFs

- 01** Double-click to open the PDF file you wish to print.

- 02** Click [Print] or .

- !** For optimal print quality, please use the recommended software for your operating system.
For macOS, the built-in Preview app is recommended.
For Windows, download and use Adobe.

- 03** Select the PM-241-BT Printer, and click [Print] to start printing.

- 04** Tear off the label along **05** Remove the backing. **06** Stick the label onto a dry, flat surface.
