1.Label Adjustments

Edit View Go Tools Wind

1.1Adjusting Label Margins

Sometimes your shipping platform or the settings on your application results in prints that are off center or cut-off.

You can adjust these margins and define new paper sizes by the following method.

For Mac:

-> Open desired file (e.g. a PDF). Click "File" and choose "Print". Select "Show Details".

-> Click "Manage Custom Sizes". Adjust the margins as desired on "Non-Printable Area". You may need to do some trial and error to find the perfect combination.

	Sample-Label.pdf (4.00x5.00" 4.00x6.00" 4.00x6.00" 4.00x13.00" 100mmx100mm 100mmx120mm 100mmx150mm		Untitled	Paper Size:	4 in	6 in
PRIORITY MAIL 2-DAY™ John Smith 99 1234 BARNES RD CARSON NV 30000	Copies Pages	100mmx170mm 100mmx180mm 100mmx200mm		Untitle® 1	Non-Printable	Width	Height

PDF V Hide Details		С	ancel Print	?		Cancel	ОК

-> Click on "OK" to send these settings to the printer for your next print.

For Win:

-> Go to "Control panel" -> "Devices and Printers"

(Right click on "This PC", choose "Properties", then click on "Control panel"-> "Devices and Printers")

1.2 Cropping a full size 8.5" x 11" page to a 4" x 6" label

Some shipping platforms only provide you with a full page (8.5" x 11") document. Frequently, they use half of the page for the shipping label and the other half for receipt or packing slip.

While there are many ways to split this page into a 4" x 6" label size, here is our favorite method: <u>1."Take a Snapshot</u>

2."Crop pages" -> Remove White Margins:

Please see this article for Cropping multiple pages

<u>1."Take a Snapshot"</u>

1 Save your label as a PDF file

For Mac:

②Open the file in Adobe Reader

③Go to "Edit" -> "Take a Snapshot"

④Drag the box over your label, then right click on it and select "Print"

⑤Select Printer ->Click "Page Setup..."

-> Select Printer from "Format For: " -> Select label size from "Paper Size: "

⁽⁶⁾If the size you need not is not listed, then click "Manage Custom Sizes" -> input width, height and rename the size, then click "OK"

Note: If you are shipping more than a few labels, you would benefit from using a commercial solution that create 4 x 6 labels in one-click. See this article: <u>How do I generate labels?</u>

Official guide from Adobe: <u>Print portion of a PDF page using Acrobat or Reader</u> (https://helpx.adobe.com/acrobat/kb/print-portion-page-acrobat-reader.html)

How can I crop multiple pages in the same document at once?

1) On Adobe Acrobat you are able to crop several / all pages together. Please see: <u>https://helpx.adobe.com/acrobat/using/crop-pdf-pages.html</u>

2) Briss is a free open-source application available for cropping PDF pages at once. It may take a little while getting used to it but once you are comfortable with it, it is pretty fast: <u>https://sourceforge.net/projects/briss/</u>

4) For Mac:
There is a third-party company that offers a software for cropping labels
Please download form: <u>https://www.peninsula-group.com</u>
There is an operation tutorial video: <u>https://www.youtube.com/watch?v=Mos4GNnRZ5c</u>

1.3 Cropping multiple pages in the same document at once

Some shipping platforms only provide you with a full page (8.5" x 11") document. Frequently, they use half of the page for the shipping label and the other half for receipt or packing slip.

While there are many ways to split this page into a 4" x 6" label size, here is our favorite method: <u>1."Take a Snapshot</u>

Please see this article for Cropping a 8.5 x 11 pages to a 4 x 6 label

2."Crop pages" -> Remove White Margins Download Acrobat Pro (need to pay) for "Crop pages" and also "Take a Snapshot" if you do not have it already from Adobe website (https://get.adobe.com).

2."Crop pages"

①Save your label as a PDF file

For Mac:

②Open the file in Adobe Acrobat Pro

③Go to "Edit" -> "Edit Text & Images" -> "Crop Pages" -> Double click white margins

④Set "Units"

			Set Page Boxes	
Page E Po Pic Sh Margin Co Apply to: Top: Bottom: Left: Right: Constry Remove	sints cas lilimeters chos cho	C C Revert To Selection	Set Page Boxes	
				Cropped page size: 8.274 x 11.690 in

⑤Tick "Remove White Margins" -> Remember "the Cropped page size" -> Choose "All" and click "OK"

⑥Select Printer -> Click "Page Setup..."

-> Select Printer from "Format For: " -> Select label size from "Paper Size: "

2) Briss is a free open-source application available for cropping PDF pages at once. It may take a little while getting used to it but once you are comfortable with it, it is pretty fast: <u>https://sourceforge.net/projects/briss/</u>

3) For Mac: There is a third-party company that offers a software for cropping labels Please download form: <u>https://www.peninsula-group.com</u> There is an operation tutorial video: <u>https://www.youtube.com/watch?v=Mos4GNnRZ5c</u>

1.4 Create New Custom Size Labels

When you load in a new direct thermal label, there are two actions that need to take place:

- 1) Run the automatic label identification on the printer.
- 2) Set proper label settings on your computer.

1)Run the automatic label identification.

①Disconnect the USB cable from your printer, then turn the printer off.

Press and hold the Feed Button until you hear one beep, then release.

② Printer will determine the gap size and other properties of your label.

③After the determine, re-connect the USB cable to the printer and resume printing.

Check the segment of video "Automatic label identification":

https://www.youtube.com/watch?v=rddF2KadOl4&list=PL3_AhQ0D1H_DgoSgYcMdUBrRnBCitKvP1&index=13

2) Set your custom label size

①For Mac:

Select or input label width and height that matches label size installed in printer in prompt window.

2 For Win:

Go to "Control panel" -> "Devices and Printers" (Right click on "This PC", choose "Properties", then click on "Control panel"-> "Devices and Printers")

->Right click on "Label Printer" -> choose "Printer Preferences"

-> Go to "Page Setup" -> Select the paper type in "Name"

Label Printer Printing Preferences	X Bubel Printer Printing Preferences X Layout Page Setup Graphics Option

Third step:

The application you are using (e.g. Adobe Reader) could be over-riding your driver label setting and sending the print in a larger / smaller size to the printer. Look for "Page Setup" or "Paper Size" in the print prompt and ensure it is set to the size you want.

2.Tips and Tricks

2.1 Sharing Label Printer over the network (Windows)

You can share Label Printer with other computers in your network using Windows' Printer Sharing feature.

Windows

Go to "Control panel" -> "Devices and Printers"

(Right click on "This PC", choose "Properties", then click on "Control panel"-> "Devices and Printers")

Right click on "Label Printer" -> choose "Printer properties"

Go to "Sharing" -> tick "Share this printer" -> click "OK".

When done, click or tap OK. The printer is now shared with the other computers on your network, regardless of the operating systems that they are using.

2.2 Printing FBA Product ASIN labels

There are two ways to print your ASIN tags, including Amazon provides way.

Method 1: Amazon Scan & Label

In your Amazon Seller Central account, please click on Inventory -> Manage FBA Shipments.

At the top of the page, click on Scan & Label

Click on Printer Settings, enter your label dimensions, and click on Save

Printer Settings Printer Set	
Edit Printer Settings	×
Width(mm) 60 Width must be between 25mm and 100mm.	
Height(mm) 31 Height must be between 25mm and 100mm	
Cancel Sa	ve

Tip: If your label size is smaller than minimums required by Amazon, just scale both Width and Height together. For example if your label is 20mm x 20mm, you can enter 40mm x 40mm

Enter your UPC / Merchant SKU and press enter

3. Open the downloaded file in Adobe Acrobat (ATTENTION: NOT Adobe Reader).

4.Go to Edit -> Take a Snapshot

5. Click and drag over one of your labels.

6.Click File -> Print. Ensure preview looks good and click Print.

When done, click or tap OK. The printer is now shared with the other computers on your network, regardless of the operating systems that they are using.

2.2 Mac: Select default label size for Label Printer

There are a few ways to set a default label size for your Label printer.

Normally, you can use "Last Used Settings" shown below as a preset to print. This will remember the setting that was previously used.

If this doesn't work for any reason, please follow these steps to set the default size for OS

In the Print Prompt Window, under Paper Size, click on "Manage Custom Sizes"

Click on "+" to add a new size.

Create a new size with 4" x 6" dimensions. You may double-click on the left to rename this page or something similar.

Please go to System Preferences -> Printers & Scanners -> Select Label Printer and set the default size.

1.2 Amazon.com

There are few different types of labels that Amazon provides for sellers. Please see information about each below:

<u>Amazon Customer Orders</u> - These are orders to fulfill customer orders. You may simply leave the layout as "default" and this will produce a label in 4x6 size in the proper format for Label Printer and other thermal printers.

<u>Amazon ASIN product labels</u> - These are the labels to place on products before sending to Amazon. You may also send these directly to Label Printer from Amazon's Scan & ship page: <u>Printing FBA Product ASIN labels</u>.

<u>Amazon FBA Labels for outside the box</u> - These are the labels that are placed outside of the box containing yo ur product that is being sent to Amazon's warehouse.

1.3 UPS.com

UPS provides a free software for all UPS customers called WorldShip. This application is optimized for printing labels in 4 x 6 format in high-speed and with efficiency. UPS.com website, on the other hand, has more limitations. Please <u>see this article for setting up WorldShip with Label Printer</u>

If you don't like using WorldShip, we then recommend one of the commercial solutions discussed in this article <u>How do I generate shipping labels</u>

They connect to UPS.com and print your label in 4 x 6 format using your negotiated rates for your shipments. They are online, user-friendly, and you can set them up in just a few minutes.

If you definitely want to ship from UPS.com directly, then there are two ways to print from UPS.com:

- 1) You may leave the settings as default on UPS.com and crop the label using steps in this article <u>Cropping a full size 8.5 x 11 page to a 4 x 6 label</u>
- 2) One of our customers has created a software to make this process easy: <u>http://www.sroman.com/Software/index.php</u>

3) Install Label Printer as a UPS Thermal Printer. Please note UPS.com Thermal Printers only print to 4x8 (not 4x6) label sizes, so you must ensure that you have the correct label. This size limitation does not exist with UPS WorldShip or Commercial Solutions as discussed above. To install the UPS Thermal Printer, please follow <u>this</u> <u>guide from UPS</u> (<u>https://www.ups.com/us/en/resources/ship/create/labels/technical.page?#contentBlock-11</u>) and install Label Printer as the UPS Thermal 2844 printer.

1.4 UPS WorldShip

Follow these simple steps to setup your UPS WorldShip with Label Printer.

If you have not already done so,

please download UPS WorldShip (https://www.ups.com/forms/order/worldship_download?loc=en_US) and install it on your computer.

After your have gone through your initial Setup, please open UPS WorldShip and follow the steps below:

1.6 Etsy

To update your Etsy settings so it generated 4x6 shipping labels:

- 1) Sign in to Etsy.com.
- 2) Click Shop Manager.
- 3) Click Orders & Shipping.
- 4) Click View shipping labels.
- 5) Click Options.
- 6) Select Format my labels for 4x6 Label printers.

Please note that after you change the label format to 4 x 6, only new labels will be generated correctly. Kindly void any previously generated labels and create new ones.

Article content source: https://help.etsy.com/hc/en-us/articles/360001968348?segment=selling

1.7 ShipStation

Please follow the following steps to update your ShipStation document settings to be 4 x 6.

1. Click on Settings gear icon at the top right corner.

2. Choose Document Options.

3.Click on "Document Options" next to "Labels".

iettings » Printing Setup

1.11 Poshmark

By default Poshmark produces labels in in 8.5 x 11 size which won't fit correctly on 4x6 labels.

Please kindly update your label size setting on Posh Mark to 4x6.

To select your shipping label size, go to: Account Tab -> My Seller tools -> Shipping Label Settings

Reference:

https://support.poshmark.com/articlesDescriptionPage?id=ka01I000000aaxtQAA

1.12 Shippo

To print your label in 4x6 in format, which is compatible with thermal label printers, navigate to the Labels tab (<u>https://goshippo.com/login/</u>) by clicking "Settings" then "Labels". Find the "Default label format" drop-down menu and choose "4x6 in PDF," then save your changes at the bottom of the page.

Once you've changed this setting, your labels will print in the correct format for your thermal label printer. Keep in mind that when you change this format, it will only apply to new labels, created after you make the change. Shippo doesn't convert the formats of existing labels. Please note that international UPS labels cannot be created in 4x6 in format because of the attached commercial invoices (for all other carriers, commercial invoices are created separately in Shippo).

Label – Zebra LP2844–Z – 4.0"x6.0" Label – Zebra TLP2844 – 4.0"x6.0" Label – Zebra TLP 3842 – 4.0"x6.0" Label – Zebra TLP 3844–Z – 4.0"x6.0"

Note: PayPal stores labels as files on their website. After you change your label size to 4x6, only new labels will be created in this size. Previously generated labels will remain in the old size. You can always void an old label and when it is created again, it will be in the new size.

Personal PayPal Accounts

- 1. Login to PayPal www.PayPal.com
- 2. Visit https://www.paypal.com/shiplabel/createbulk
- 3. Click on Shipping Preferences

4. Select the Label Printer and any of the 4.0"x6.0" sizes

PayPal Multi-Order Shipping

After you are logged into your Multi-Order shipping platform, click on Edit > Settings

Choose the "Print Settings" settings from the left menu, click on the "Label Printer" and choose any of the 4 x 6 labels. To Save, click OK.

1.15 Chitchats

This label printer is compatible with all platforms that offer shipping labels in 4x6 format. This includes Chitchats.

For setting up Chitchats, please see the official help link: https://support.chitchats.com/support/solutions/articles/47000426810-how-do-i-print-postage

1.16 Stamps.com

Note: We recommend that you switch to Stamps.com's newest acquisition ShipStation for reliable, fast, and easy printing.

1.16.1 Web Version

We recommend that you use the web version of Stamps.com. You may access it via https://print.stamps.com

1. Choose 4 x 6 in the drop down menu

2. Click on "Print" and choose your Label Printer ensuring that the label size is set to 4x6.

Print Preview
Print
Print Instructions
1. Click Print to open the print in your brows

2. After selecting your printer, remember to

Note: If you are using the old Stamps connect application:

Due to a software bug on Stamps.com connect, we need to first rename the Label Printer in your computer as "Zebra LP2844".

To do this on Windows, go to Control Panel > Printers > Right click on Label Printer > Properties > Change the name to Zebra LP2844 and then click OK.

To do this on Mac, please go to the System Preferences -> Printers -> Right click on Label Printer > Rename > Change the name to Zebra LP2844 and click OK.

You will need to quit Stamps.com and re-open it. You will now see Zebra LP2844 in your Stamps.com drop down menu.

1.16.2 Stamps.com Pro Software

Stamps.com software requires a few steps to successfully print to a thermal printer. This software was originally produced in late 90s and the set up steps reflect that era. Essentially, we will install Label Printer as a EPL printer.

- 1. Download the Zebra Printer Driver (ftp://ftp.fedex.com/pub/us/software/ZebraFedEx_driver_4500_self_extracting15.exe)
- 2. After opening the downloaded file, please click on "Install Zebra Printer"

You can check the video to know:

How to install Zebra 2844 Driver with PM-241 on Win: How to intall Zebra 2844 Driver

How to install Zebra EPL2 Driver with PM-241 on MAC: <u>How to intall Zebra EPL2 Driver</u>

3. Select Zebra 2844 and click "Next"

3	Selecting the printer		×

1.17 Fedex Ship Manager

The easiest way to print your shipping labels from Fedex is to use a commercial platform, such as XPSShip (free) or ShipStation (paid but great). They are approved Fedex partners and use your negotiated rates to provide you with a 4 x 6 shipping label which you can then easily print to PM-241. You will also be able to compare rates from other carriers and pick the best option.

We recommend this because Fedex Ship Manager is a bit cumbersome to set up. If you contact Fedex for support, they may inform you that they only provide support for printers that are supplied directly by them.

If you would like to use Fedex Ship Manager, please download and install the latest version from the Fedex Website.

During installation, you will be prompted to call Fedex to obtain your activation code. After verifying your account information, your activation code will be emailed to you.

Note: Fedex Ship Manager software requires a few more steps than other platforms to work. Essentially, We need to install PM-241 as a EPL printer to work with Fedex Ship Manager.

- 1. Download the Zebra Printer Driver (ftp://ftp.fedex.com/pub/us/software/ZebraFedEx_driver_4500_self_extracting15.exe)
- 2. After opening the downloaded file, please click on "Install Zebra Printer"
- You can check the video to know:

		Pre	ferences		Print Test	ge

5. Next, go to Fedex Ship Manager, click on the "Utilities" -> "Printer Setup"

6. Select Zebra 2844 under the "Label Printer" and click OK

Printer Setup		×
Report Printer: Adobe PDF	~	Test Printer
Label Printer: Zebra 2844	~	Test Printer
<u>о</u> к 2		<u>C</u> ancel

7. We now need to change the default label size to 4 x 6. Click on "Customize" -> "Shipping Profiles"

8. Select the appropriate domestic or international shipping profile and click "View/Edit". You may want to update all of them to the correct size.

Ship	ping Profiles	×
	Code	Description
♠	DEFAULT	Default Domestic Shipping Profile
₥	DEFAULT	Default LTL Freight Shipping Profile
3	DEFAULT	Default International Shipping Profile
2	PASSPORT	Default Passport Shipping Profile
_		
	ОК	Add Add by duplication View/Edit 2 Delete

13. If you are using Fedex Provided Labels, their sizes and part numbers are as follows.

153078-077 - Indicates a Format 77 label. (4" x 5" Thermal Label with FedEx Logo) 154254-354 - Indicates a Format 354 label. (4" x 6 3/4" Thermal Label with Doc Tab) 156295-434 - Indicates a Format 354 label. (4" x 6" Thermal Label without Doc Tab) 156297-435 - Indicates a Format 435 label. (4" x 6 " Thermal Label without Doc Tab)

a. To change the label format for FedEx Express domestic shipments, click the 2 - FedEx Express Prefs tab. In the Label Format section, select the appropriate label format for the label part number and click OK.

b. To change the label format for FedEx Express international shipments, click the 2 - FedEx Express Prefs tab. In the Label Format section, select the appropriate label format for the label part number and click OK.

c. To change the label format for FedEx Ground domestic shipments, click the 5 - FedEx Ground Prefs tab. In the Label Format section, select the appropriate label format for the label part number and click OK.

d. To change the label format for FedEx Ground international shipments, click the 4 - FedEx Ground Prefs tab. In the Label Format section, select the appropriate label format for the label part number and click OK.

14. After making your changes, click OK on the View Shipping Profiles screen.

15. Reboot (exit and relaunch) the software and attempt to ship a package.

1.18 QuickBooks Enterprise

Quickbooks is not currently on our official supported platform list: What platforms does PM-241 work with? Note: QuickBooks software requires a few more steps than other platforms to work. Essentially, we will install PM-241 as a EPL printer.

Quickbooks Enterprice Software:

1. Download the Zebra Printer Driver (ftp://ftp.fedex.com/pub/us/software/ZebraFedEx_driver_4500_self_extracting15.exe)

2. After opening the downloaded file, please click on "Install Zebra Printer"

You can check the video to know:

How to install Zebra 2844 Driver with PM-241 on Win:How to intall Zebra 2844 DriverHow to install Zebra EPL2 Driver with PM-241 on MAC:How to intall Zebra EPL2 Driver

3. Select Zebra 2844 and click "Next"

Select Printer		
Please select the manufactu	urer and printer you want to install.	C
Select the manufacturer and moo <change location="">. You can also key while selecting printers.</change>	del of your printer. If the driver is in a different folder o choose to install multiple printers at once, using th	click e CTRL

1.20 How to use PM-241 printing with Endicia Dazzle

1. Ensure you are in the Design Tab.

2. Click on "File" -> "Printer"

4	DAZzle 2	016 - ze	bra label		
Fi		nsert	Layout	Postage	Application
	New Layou	Jt			
	Open Layo	ut			
	Save Layou	Jt			
	Save Layou	ut As			
	Print				
	Print from		_		
	Printer Set	up N	2		
	Default Pri	nters			
	Print Previ	ew			
	Preference	s			
	Vista and V	Vindow	s 7 Com	patible	
	Exit				

3. Set your Printer and Label Values as shown. Click on "Test Print." If it all looks good, click "OK."

Note: Due to a software bug in Dazzle, "Quick Label" does not produce 4 x 6 labels. Please create your own labels from the "Design" tab.

Per Endicia Support:

The Design tab would be the correct route. You would need to change layouts on the Design tab as you change from a domestic address to an international one, or an APO. The main reason for the Quick Label tab was to shield users from the need to change label layouts. Dazzle changes the layout based on the address and mail class.

The layouts you may need to set up would be:

Zebra Label.lyt - for all domestic labels, with the exception of Priority Mail Express Zebra Express Mail Shipping Label.lyt - for Priority Mail Express APO and US Territory Label - Small 6x4.lyt - for any military mail or territories, like Guam International Label - Small 6x4.lyt - for any international addresses.

1.21 Pirate Ship

This Printer is compatible with all platforms that offer shipping labels in 4x6 format. This includes Pirate Ship.

For setting up Pirate Ship, please see the official help link:

https://support.pirateship.com/en/articles/2610080-windows-how-to-print-with-a-4x6-label-printer
